

CLOUD COUNTRY WEST UNIT #1 POA
Construction Permit Requirement For Existing Building Additions
(Including Room Additions & New Garage/Storage Buildings)

Prior to commencement of construction, the lot owner shall complete and deliver the below information to the Architectural Control Committee (ACC.) The ACC will review and approve or disapprove in writing the plans submitted within thirty (30) days. The ACC will make every effort to promptly request any changes or additional information necessary to facilitate approval of the plans. No verbal authorization allowed.

1. Contact Information (Name, Location, Phone and/or Email)

2. Description of Project

3. Description of proposed construction placement on lot. Construction must fall within property line setback limitations set forth in the *Restrictive Covenants for Cloud Country West Unit #1*. (Attach site plan.)

4. Description of materials to be used for construction of foundation. Include color and materials used for exterior finish treatment of exterior building walls.

5. Description of materials to be used for construction of foundation. Include color and materials used for exterior finish treatment of foundation surfaces.

6. Description of roof structure. Include color and materials used for roof surface.

The above statements must specifically clarify the extent to which exterior walls, foundation and roof of proposed construction either match or differ from the exterior walls, foundation and roof of existing home structure.
